

## IMPORTANT SAFETY RECALL

This notice applies to your vehicle [insert VIN]

Safety Recall No. 13E-059

This Notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Carlisle Transportation Products, Inc. ("CTP") has decided that a defect which relates to motor vehicle safety exists in the fitment of CrossTrax Series trailer wheels to trailers. These products are produced by CTP suppliers.

These wheels were manufactured with machined dimensions in place for the control of overall material thickness which in turn permits proper tire fitment to ensure the tire/wheel assembly meets a specified load rating. During manufacture of the wheels, machined dimensions were not controlled to the required blue print specifications. As a result, wheels may have been sold or entered service with an outboard flange thickness that is below the design specifications of the product and subjects the wheel to damage and flange separation while in service in the area where the tire seats to the wheel. If such a separation were to occur during trailer operation, it would result in a rapid loss of air pressure in the tire and ejection of the broken flange area from the wheel. This could lead to possible damage to the trailer and can increase the risk of a crash.

All products identified below whether mounted to trailers or not must be contained and/or removed from service immediately. The affected product was manufactured between October 2011 and July 2013:

Generic Name	Brand Name	Part Numbers	Inclusive Dates of Manufacture
Carlisle Toy Hauler Series Trailer Wheel	"Black Rock" CrossTrax Series Trailer Wheels	922MB561235 15" 5 lug, Machined & Black Accents 922MB566035 15" 6 lug, Machined & Black Accents	October 2011 – July 2013

CTP will repair or replace affected wheel(s) free of charge to include any dismounting and mounting. Please contact our Customer Care Department between 6:00am and 2:30pm Pacific STD Time, Mon-Fri, at (909)-923-2710 to arrange for the replacement of affected wheel(s). If you have previously paid for a replacement of the wheel(s) as a result of this defect, CTP will reimburse the cost of such replacement based on your receipts.

Federal law requires any lessor who receives a notification of a determination of a safety-related defect or noncompliance pertaining to any leased motor vehicle shall send the notice to the lessee within 10 days.

If you are no longer owner of this vehicle, please provide us with any contact information so we may contact the new owner.

If you believe you have not been able to have your wheel(s) replaced without charge and within a reasonable amount of time, you may submit a complaint to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, D.C., 20590; or call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or go to <http://www.safercar.gov>.

Your safety is important to us. We regret any inconvenience this action may cause.

Sincerely,

Carlisle Transportation Products, Inc.
